<b>Who are they?</b>	A FEDERACIÓ CATALANA PRO PERSONAS CON DISCAPACIDAD INTELECTUAL – APPS
<b>Where are they?</b>	Catalonia, Spain.
<b>What do they do?</b>	Improving the quality of life for persons with intellectual disability and their families. Thanks to the 261 NGOs and their 4,000 employees that belong to APPS, around 17,000 families received attention.
<b>What did they receive?</b>	Microsoft Products
<b>The outcome?</b>	We were looking to upgrade and unify our software, but the programs were too expensive. Thanks to DONO we could get 30 licences for Office 2003, the Visual Studio and the SQL Server.  The costumer service and advice are very good and we received all the products within 15 days. Since then, we always recommend DONO to any of our member bodies that are looking for software.
