Fundraising for Medical Equipment for Children's Clinics and Hospitals

Wielka Orkiestra Świątecznej Pomocy (WOSP) is a Polish NGO that raises funds once a year during Christmas to buy specialised medical equipment for children's hospitals.

Their work includes buying and donating specialised medical equipment to children's hospitals and health centres that otherwise have no funds to upgrade their equipment. By doing so WOSP also greatly increases the capacity of these institutions to deliver their services.

Through TechSoup Global Partner, BDR, WOSP received Microsoft products, including Office Professional and Windows XP Upgrade.

The donations enabled WOSP to greatly upgrade the quality of work, made all their software compatible and, most importantly, legal.
